

ANNOUNCEMENT

The first DWR San Joaquin River Regional Forum on Water Planning and Management is scheduled for Wednesday, January 18th from 9:00 a.m. – 12:30 p.m. The Forum will use a webinar and conference call format. Satellite locations for in-person attendance will be located in Los Banos, Merced, Modesto, Oakhurst, Sacramento and Stockton. See below for more details!

The Department of Water Resources, in cooperation with local entities and organizations, is holding a Regional Forum to gather and share information relating to the California Water Plan, the ACWA Groundwater Program, and the DWR Integrated Regional Water Management (IRWM) program. The agenda includes collecting feedback on local priorities that will help inform statewide investments.

Representatives of water agencies and collaboratives; local, state, Tribal and federal government; watershed and community groups; conservancies; and the public are welcome and needed for successful dialog.

Forum Details

Please go to www.waterplan.water.ca.gov/materials/index.cfm?subject=jan1812, to download the agenda, webinar link and conference call number. Meeting materials will be posted as they are available. Satellite locations include the (add locations here). The webpage and agenda lists the address for each location. The agenda items for this Forum will focus on DWR programs, with updates and discussion on the **Water Plan Regional Reports** and topic-based caucuses (including the groundwater and sustainable indicators caucuses) and a status update regarding **IRWM efforts**. Two feature presentations will include an overview of the **ACWA Groundwater Program** and a preview of the **Planning for an Uncertain Future Workshop**.

Background

This Forum is part of a new regional approach for discussing water issues and management strategies. The concept evolved from the Regional Workshops that supported Update 2009 of the California Water Plan. Those workshops focused on developing the Water Plan Regional Reports, which described local conditions and activities related to water and flood planning and management. The Update 2009 San Joaquin River hydrologic region report is available at: www.waterplan.water.ca.gov/docs/cwpu2009/0310final/v3_sanjoaquinriver_cwp2009.pdf

NOTE: This is a large PDF (9.3 MB) and will take a while to download!

During the Update 2009 workshops, stakeholders encouraged DWR to consolidate outreach efforts for their various programs and to coordinate outreach with other State agencies. As a result, DWR introduced this new approach for coordinated regional outreach at a public workshop and two webinars. Information on this new regional outreach approach was shared through the California Water Plan eNews, IRWM and FloodSAFE and regional email lists, inviting local stakeholders to become involved and help plan the Regional Forums for the various hydrologic regions throughout the State. As a result, representative stakeholders from the Tulare Lake region are helping to plan the Tulare Lake Forums and are assisting with local outreach. Several Forums will likely be held each year, with agendas focused on specific water related programs associated with DWR and other agencies.
